

CIAV VERNADOC 2010

The international documentation camp of vernacular architecture

The object of the work: wooden cross church of Östmark (1765) covered by wooden shingles

- Time:** 15.05.-31.05.2010, before and in connection to the CIAV Annual Seminar
- Place:** Östmark, Torsby Sweden, 110 km north from Karlstad Sweden and 40 km east from Kongsvinger Norway
- Aims:**
- To learn the method by working it throughout the process
 - To become acquainted with the expertise of the participants and to create international contacts for further work in the field
 - To develop a method and models for international cooperation
 - To produce high quality measured drawings and to exhibit them in the exhibition and to publish at the end of the camp
- Object:**
- Measuring and drawing the church of Östmark

Participants:- 2 persons / country from different parts of the world, the max size of the group is 16, including the organizers and specialists

- They are used to making building drawings and know the basics of measuring work
- All the participants have to be ready to work and live in rather harsh conditions.
- Everyone in the camp works in practice, no idling is accepted
- Min one member in the “country group” is competent to teach the method in the home country and competent to arrange an international documenting camp in the home country
